3/22/81

Dear Harold,

Hope this letter finds you and your wife well and in good spirits.

I suffered a nervous breakdown but have come back now to speak.

I found Best Evidence absurd but on the question lining inside its sales steered the deep intrest in the subject.

Fonzi did an article which I shared Dr. H.S.C.A. worked about his own theory based on Veciana is not very persuasive.

Bakely, an ivy league paranoid with one fixation - Mob Did It!

Thought this cartoon would amuse you.

What have you been doing all this time?

Sincerely,
